# A WORD FROM OUR EXECUTIVE DIRECTOR

Our community has stepped up to meet the needs of children in foster care in profound ways. More families are fostering. Volunteers are providing kinship and foster families with support. Training is being offered right here in our county to certify and further equip foster families and others to serve children from hard places.

More children are able to stay right in our county, close to familiar people and places. Families, volunteers, churches and schools are using trauma informed tools to help children find healing, supporting the work of our mental health community. YOU have made a difference! As the numbers of children continue to remain at an all time high we are counting on you to help in 4 ways:
