

Ohio House Civil Justice Committee
 77 South High Street
 Columbus, Ohio 43215

November 19, 2020

Dear Honorable Chair Rep. Stephen D. Hambley, Vice Chair Rep. Tom Patton, Ranking Member Rep. Richard Brown, and Members of the Civil Justice Committee,

We are a diverse group of leading clergy representing one hundred (100) congregations throughout the Buckeye Bible Belt of North Central Ohio. We are unified by Biblical Truth¹ and follow the instructions found in Matthew 25: to feed the hungry, to give drink to the thirsty, to take in the stranger, to cloth the naked, to visit the sick and to counsel the incarcerated. Our congregations even serve the LGBT community and their loved ones without prejudice.

Having said this, not only are we unified by Biblical Truth that says every human being is made in the image of GOD (Genesis 1), that GOD made male and female (Genesis 1), and that man shall leave his father and his mother and hold fast to his wife (Genesis 2), we are also unified in our opposition to House Bill 369 and its companion legislation Senate Bill 11 which has been proposed to amend the Ohio Revised Code.

It is our understanding HB 369/SB11 will:

- 1) Require men and boys be allowed in women's bathrooms, locker rooms and showers if they claim to identify as women
- 2) Require boys be allowed to play in girls' sports in public schools if they claim to identify as women
- 3) Allow government to remove children from parents' custody if they do not consent to dangerous conversion/hormone therapy
- 4) Force women's homeless and domestic violence shelters to allow men who claim to identify as women to bathe and bunk with victimized women
- 5) Force doctors to participate in 'gender transition' procedures
- 6) Prohibit faith-based ministries from operating in line with their religious beliefs

As servants to the orphan, widow, poor, and incarcerated, we believe the following about HB 369/ SB 11:

I. The proponents of HB 369/SB 11 have not sufficiently demonstrated the need for this ordinance. We believe Ohio is a tolerant and diverse state. LGBT persons presently have no traits of a discriminated class of people. LGBT persons have the support of political elites,² have no economic disenfranchisement,³ and have no ongoing systemic discrimination.⁴

There is no Ohio law permitting discrimination on the basis of gender identity and sexual orientation.

II. If passed, HB 369/ SB11 will force individuals to take part in events or adopt ideas that violate their faith and their First Amendment rights. It is indisputable that sexual orientation/ gender identity (SOGI) laws similar to HB 369/ SB 11, have caused persons exercising their Constitutionally-guaranteed rights to suffer economic disenfranchisement in other states.

For instance, Colorado cake artist Jack Phillips lost forty-percent of his business and over half his staff⁵ after being cited by the Colorado Civil Rights Commission for refusing to make a gender-transition cake. Despite

winning his case at the U.S. Supreme Court, the State of Colorado showed its hostility toward Mr. Phillips for his religious convictions and filed a lawsuit against him a second time.⁶

In fact, seventy-four year old floral artist Barronelle Stutzman was forced by Washington State Supreme Court to create custom floral design for a gay wedding against her religious convictions. Despite referring the customer to florists who do provide such services, she is now faced with complying with the court's ultimatum, or face bankruptcy.⁷

In another example, ordained ministers Don and Lynn Knapp operated a wedding chapel in Idaho but were forced to violate their religious conscience. City officials threatened them with criminal prosecution and fines under the city's SOGI ordinance if they did not perform same-sex ceremonies.⁸

III. If passed, HB 369/ SB 11 will lead to major violations of privacy. Arbitrary re-definitions of gender proposed by this legislation would jeopardize women's privacy and security in public accommodations like restrooms, locker rooms, and showers in public swimming pools and fitness centers. This creates huge privacy concerns for the majority of people who do not want to share these private facilities with members of the opposite sex.⁹

Consequently, in 2016 leading clergy from one hundred and two (102) congregations in Richland County, Ohio opposed the Obama restroom mandate. Their joint-letter told school and state officials the dictate "defies objectivity and logic by not classifying students as male or female on the basis of their biological sex at birth." They also stated the mandate "triggers intolerance and retribution with people having a different opinion."¹⁰

In Anchorage, Alaska, a drunk biological man who identified as a woman was denied access because the faith-based homeless shelter did not want to force vulnerable women to sleep next to a biological man. As a result, the Downtown Hope Center was slapped with a federal lawsuit.¹¹

IV. Lastly, if passed, HB 369/ SB 11 will limit access to needed social services by effectively driving out faith-based providers. These SOGI laws have been used in several states and localities to shut down faith-based adoption agencies. In Illinois alone, nearly 3,000 children were displaced when this happened.¹² Grants offered through the Violence Against Women Act have a SOGI provision that dictates the hiring practices of institutions that get grants to help battered women. Because this provision violates the conscience of religious institutions, they are unable to provide assistance desperately needed by battered women.¹³

Sadly, counseling ministries operated by people who have left the transgender lifestyle would likely not be allowed to operate.¹⁴

In closing, it is our corporate belief the dubious legacy of HB 369/ SB 11 would be a nightmare for Ohioans, turning the First Amendment upside down, and decimating religious freedom as we know it. If passed, HB 369/ SB 11 will leave women, children, and persons of religious conviction as second-class citizens. There is no tweaking this disastrous bill. Thank you for your consideration,
