Dear Valued Ohio Community Members,

I hope you're having a wonderful fall. The colors have been so beautiful this year!

I wanted to thank you again for your engagement and commitment to Ohio, and for your letter to our CEO. At Intel, we strive to build a culture of belonging and to welcome differences. We are proud of our tens of thousands of employees across the United States, including in Arizona, California, New Mexico, Oregon, Texas, and more.

The initial phase of our Ohio project is expected to create 3,000 new permanent Intel jobs. Our new Ohio colleagues will have access to a broad range of Employee Resource Groups to support them in their professional and personal lives, including religious Employee Resource Groups (ERGs). We are pleased that Intel has been recognized by the Religious Freedom and Business Foundation in both 2021 and 2022 as one of the most religiously inclusive companies.

We have a growing local team that includes Ohioans who are actively engaged with our neighbors and stakeholders in Licking County and across the state. We are dedicated to making sure we are engaged in the community and responsive to the concerns of the community.

Intel has long been committed to investing in our communities to help make them more vibrant for everyone. We look forward to being an active and positive member of the Ohio community and to working with people across Ohio to make this project successful.

I'm wishing you a wonderful harvest and holiday season.

Sincerely,
Emily Smith

Emily Smith (she/her)
